AHALife Holdings Limited  
Chairman's report  
30 June 2019

Dear Shareholder,

On behalf of the Board of Directors of Ahalife Holdings Ltd ('Ahalife' or the 'consolidated entity'), I am pleased to present the 2019 Preliminary Final Report.

We kick started 2019 with a number of initiatives. Our new CEO, Rob Mancini undertook a detailed audit of all operational, technology and financial elements of the business. This audit and an assessment of the competitive landscape resulted in a series of aggressive and accelerated strategic changes, redefining how the Ahalife moves into 2020.

To support our strategy and growth plans we completed a successful capital raise of US\$1.6 million in June and July 2019, providing Ahalife with forward flexibility to expand the business.

Late in Q3 Ahalife completed the acquisition of the award winning digital media company, Design Milk and its related websites Adorn Milk, Dog Milk, Milk Factory, and it's pop-up retail concept Milk Stand that supports independent brands and designers by offering retail space within high-traffic design focused events around the world.

As part of our plans to develop Design Milk we made a conscious decision to walk away from unprofitable sales and costly customer acquisition activities on Ahalife and Kaufmann Mercantile. We anticipated the drop in top line revenue and offset this in Q4 with our growing and high contributing Design Milk advertising revenue, resulting in a positive 5ppt gross margin improvement vs. FY18.

We restructured the operations and made further cost savings to the Ahalife and Kaufmann Mercantile businesses, enabling us to absorb the Design Milk operational costs whilst maintaining a relatively flat overall expense structure.

Upon completion of the Design Milk acquisition we designed and launched two test websites, Design Milk Everyday and Design Milk Travels, reflecting two of Design Milk's Instagram feeds of the same names that account for 3.2 million of Design Milk's growing audience of 7.5 million followers.

Having tested the opportunity of a combined media-content and e-commerce business we are pleased to announce the acceleration of our plans for a single fully integrated Design Milk website that will launch at the end of September. It will house all our Design Milk websites under one roof and combine e-commerce with our 20,000+ published articles, engaged global social media audience and large network of unique brands and designers.

As part of the focus toward Design Milk, Rob and the Management team have temporarily moved the Ahalife and Kaufmann Mercantile businesses off our proprietary systems in order to reset our technology backbone and enable a more efficient, cost effective future operating structure. Following the launch of the new integrated Design Milk website the Ahalife and Kaufmann Mercantile brands will be repositioned to compliment the lifestyle and category projection of the Design Milk business.

The Board and Management are very pleased with the speed of these recent changes and excited about the future potential and more efficient operating structure of Ahalife. H1 2020 will continue to be a period of development for the business as we rebuild the foundations of a business that offers the opportunity for multiple streams of revenue growth through e-commerce, advertising, pop-up retail, trade/b2b services and digital media.

I would like to thank you for your continued support and thank our Board, the executive team, and staff who work tirelessly to continue to build our business and capitalise on the fantastic market opportunity.

---

The above statement of cash flows should be read in conjunction with the accompanying notes

**Note 1. New or amended Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations adopted during the year are most relevant to the consolidated entity:

**AASB 9 Financial Instruments**

The consolidated entity has adopted AASB 9 from 1 July 2018, using the option not to restate comparatives. The standard introduced new classification and measurement models for financial assets.

- A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest.
- A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value.
- All other financial assets are classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading or contingent consideration recognised in a business combination) in other comprehensive income ('OCI').

Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch).

New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For trade receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available. There was no significant impact on adoption of AASB 9.

**AASB 15 Revenue from Contracts with Customers**

The consolidated entity has adopted AASB 15 from 1 July 2018, using the modified retrospective approach.

The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below.

Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period.

**Impact of adoption**

The Group has adopted Accounting Standards AASB 9 and AASB 15 for the year ended 30 June 2019. The Accounting Standards were adopted from 1 July 2018 using the transitional rules available and therefore comparatives have not been restated.

The adoption of AASB 9 had no material impact on the consolidated entity's trade receivables or cash and cash equivalents due to the implementation of ECL.

AHAlife Holdings Limited  
Notes to the financial statements  
30 June 2019

**Note 1. New or amended Accounting Standards and Interpretations adopted (continued)**

The adoption of AASB 15 resulted in the following adjustments:

- deferred revenue and customer loyalty liabilities are now classified as contract liabilities (reclassification only); and
- revenue is now recognised on receipt to the customer as opposed to on dispatch (revenue is recognised later resulting in higher inventory asset and higher contract liabilities).

The impact of adoption of these accounting standards on opening accumulated losses as at 1 July 2018 was as follows:

	US\$
Contract liability	(42,789)
Inventory	27,682
Trade payables	3,250
	(11,857)
Impact on opening accumulated losses as at 1 July 2018	(11,857)

The impact of AASB 15 compared to the previous AASB 118 'Revenue' on the current reporting year was not significant.

**Note 2. Operating segments**

*Identification of reportable operating segments*

The consolidated entity's operating segments are based on the internal reports that are reviewed and used by the Board of Directors who are identified as the Chief Operating Decision Makers ('CODM') in assessing performance and in determining the allocation of resources.

The directors have determined that there is one operating segment identified and located in the United States of America. The information reported to the CODM is the consolidated results of the consolidated entity.

The operating segment information is the same information as provided throughout the financial statements and are therefore not duplicated.

The information reported to the CODM is on a monthly basis.

*Major customers*

During the year ended 30 June 2019, there were no external customers (2018:Nil) where revenue exceeded 10% of the consolidated revenue.

**Note 3. Revenue**

*Disaggregation of revenue*

The disaggregation of revenue from contracts with customers is as follows:

	Consolidated 2019 (unaudited) US\$
<i>Major product lines</i>	
Sale of goods	3,000,578
Advertising revenue	221,855
	3,222,433
<i>Timing of revenue recognition</i>	
Goods transferred at a point in time	3,000,578
Services transferred at a point in time	178,126
Services transferred over time	43,729
	3,222,433

AHAlife Holdings Limited  
Notes to the financial statements  
30 June 2019

**Note 3. Revenue (continued)**

The revenue from contracts with customers is generated substantially all from the United States of America. AASB 15 was adopted using the modified retrospective approach and as such comparatives relating to disaggregation of revenue have not been presented.

**Note 4. Other income**

	Consolidated 2019 (unaudited) US\$	2018 US\$
Rental income	352,260	342,000
income from relocation and employment assistance program	-	18,389
Other income	352,260	360,389

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

AHAlife Holdings Limited  
Notes to the financial statements  
30 June 2019

**Note 12. Equity - contributed equity (continued)**

*Treasury shares*

The company has an equity scheme pursuant to which certain employees may access a loan funded share plan ('LFSP'). The acquisition of shares by an employee in the company is fully funded by the company through the granting of a full recourse loan. The LFSP shares are held in a trust until the vesting conditions are satisfied and the loan is repaid. Unvested shares held by the trust are controlled by the company and are recorded as treasury shares representing a deduction against issued capital. During the previous year the company completed a buyback of 4,000,000 treasury shares for US\$1,309,680 and applied the proceeds against the loan.

*Share buy-back*

There was no buyback of shares during the current year.

*Capital risk management*

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The capital risk management policy remains unchanged from the 30 June 2018 Annual Report.

**Note 13. Equity - reserves**

	Consolidated 2019 (unaudited) US\$	2018 US\$
Foreign currency reserve	(55,810)	(19,077)
Share-based payments reserve	894,790	668,250
Share acquisition reserve	266,666	-
	1,105,646	649,173

*Foreign currency reserve*

The reserve is used to recognise exchange differences arising from the translation of the financial statements of Non-US functional currency operations to United States dollars.

*Share-based payments reserve*

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

*Share acquisition reserve*

The reserve is used to recognise equity benefits provided to the vendors on acquisition of subsidiaries. This includes fair value of shares and options which is expected to be converted into issued capital in the future.

**Note 14. Equity - dividends**

There were no dividends paid, recommended or declared during the current or previous financial year.

**Note 15. Business combinations**

*Design Milk Holdings, LLC*

On 28 February 2019, the consolidated entity acquired the assets of Design Milk Holdings, LLC ('Design-milk') for the total consideration transferred of \$1,266,666. Design-milk is a globally recognised design and lifestyle-focused website sharing the latest news in art, architecture, interior design, furniture, fashion and technology to a highly engaged audience. The goodwill of \$286,666 represents profitability of the acquired business and the synergistic opportunities it offers and intangible assets that do not qualify for separate recognition.

The acquired business contributed revenues of US\$244,763 and profit after tax of US\$19,567 to the consolidated entity for the period from 28 February 2019 to 30 June 2019. The values identified in relation to the acquisition are provisional as at 30 June 2019.

Details of the acquisition are as follows:

	Fair value US\$
Trade name and trademarks	730,000
Customer relationships	250,000
Net assets acquired	980,000
Goodwill	286,666
Acquisition-date fair value of the total consideration transferred	<u>1,266,666</u>
Representing:	
Cash paid or payable to vendor	500,000
Deferred consideration	500,000
Share option issued on acquisition (note 13)	266,666
	<u>1,266,666</u>
Acquisition costs expensed to profit or loss	<u>18,000</u>
